Company Overview

JK United is a premier transportation and logistics provider offering supply chain solutions to both commercial and government partners alike. JK United managing transportation services throughout North America.

Whether it's a single expedited move or a large multi-tiered logistics contract JK United is the go to strategic partner. We are committed to offering customized solutions, excellent customer service, 24/7 tracking, and timely and accurate status updates. Safety and on-time delivery are our driving force. Our assets include a dedication fleet, GPS tracking, late model equipment, and electronic logging.

At the helm of JK United is Gurpinder Singh the CEO/President. Transportation is in his veins as he worked alongside his father who ran a successful transportation and logistics company for many years. Gurpinder learned every side of the business having worked his way up through the ranks in just about every position from logistics management, safety supervisor to short and long haul drivers. This equipped Gurpinder with the expertise and drive he would need when he started JK United in 2015. Within the first five years, Gurpinder and his team took a small company to a fleet of over 40 plus trucks that currently serves local commercial clients and government agencies alike.
